

SIMILDIET

Professional Peelings

SIMILDIET offers comprehensive chemical peel system, where each peel is specifically designed to treat skin imperfections; ranging from moderate to severe ones.

Mandelic

Reaffirming
50% Mandelic Acid
2% D.M.A.E.

Indications:

Ideal for flaccid skins, those with poor muscle tone, and skins with low tolerance.

Nº de Reg. AEMPS 440-PE
pH 2.64

Ferulic

Moisturizing - Photo-aging
8% Ferulic Acid
5% Malic Acid
5% Citric Acid
5% Lactic Acid

Indications:

Skin aged by exposure to the sun, wind, the elements, and tobacco products. Skins that have lost vitality and luminosity, are dull, lifeless, or uneven in tone. Sensitive skins with small dilated superficial veins or microcirculatory alterations, are highly reactive, and suffer from telangiectasias.

Nº de Reg. AEMPS 442-PE
pH 2.10

Glycolic

Anti-aging - Depigmentation
70% Glycolic Acid
7% Kojic Acid
7% Citric Acid
5% Lactic Acid
2% Salicylic Acid

Indications:

Aging skins with age spots or melasma. It improves fine lines, and clarifies and reduces skin pigmentation. For dull, lifeless skin with dyschromias, skin irregularities, normal scars and acne scars as well as pigmentation changes caused by acne or scarring. Complexions that appear "dirty" and show a lack of vitality.

Nº de Reg. AEMPS 441-PE
pH 0.16

Azelaic

For oily and acne skin
20% Azelaic Acid
2% Salicylic Acid
3% Lactic Acid
5% Arnica

Indications:

Oily and acne skins. Folliculitis and rosacea. Enlarged, open pores. Skin troubled with zits, shiny areas, pimples, and blackheads.

Nº de Reg. AEMPS 443-PE
pH 2.67
